

HOW IT WORKS:

Pick up a passport at your first farm. (And don't forget to get a sticker at each farm you visit!) Using a passport is not required to visit farms, but it can help you plan your day. An "insider" note – you probably can't have a good experience if you try to visit all the farms in one day – especially because we've added farms this year!

OUR 4TH OPEN FARM DAY!

Open Farm Day is an opportunity to get a behind-the-scenes look at our local farms, learn about farm operations, build respect for the work our farmers do – and, of course, to have some fun!

Farmers not only grow the food that sustains us, they contribute to our local and regional economy, and help protect open space – one of Southwick's most valuable assets!

PLEASE BUY LOCAL WHENEVER YOU CAN!

Southwick Open Farm Day is organized by the Town of Southwick Agricultural Commission

Please get in touch with us for more information on agricultural and conservation programs! Please email agcom@southwickma.gov or visit www.SouthwickAg.com for more information.
